SS31 10mg

If you use this protocol, you will need four vials to complete the cycle.

Add 2ml of bac water

Recommended dosage:

First two weeks= .5mg (10 units)

Then 1mg (20 units)

5 days on /2 days off

Take in the MORNING

8 weeks on/8 weeks off

SS-31 + MOTS-c Synergy:

* Weeks 1–4: SS-31 alone (stabilize mitochondria)

* Weeks 5–12: Add MOTS-c at 1–2mg/day (overlap 4–8 weeks)

* Discontinue SS-31, finish out MOTS-c cycle, or alternate thereafter

Tracking results:

* Subjective: Energy, workout capacity, recovery, sleep quality.

* Biomarkers: Fasting glucose, fasting insulin, HOMA-IR, A1C, lipid panel, liver enzymes.

* Performance: HRV, resting HR, VO_2 max, body composition.
